Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Applicant's election with traverse of group 1, claims 1-22 and 25 in the reply filed on 18 July 2006 is acknowledged. The traversal is on the ground(s) that there is no serious burden on the Office and that the examiner has powerful search engines at his disposal. This is not found persuasive because as set forth in paragraphs 4-6 of the Office action Restriction dated 29 June 2006, there is a serious burden on the Office. Further, the nature of the search tools available is restricted to text searching which has limited utility when searching mechanical features which are typically labeled any number of different names.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 112

2. Claims 1-11 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 1, line 8, after "filter media" it appears the word —tray—should be inserted to render the claim language definite.

Allowable Subject Matter

3. Claims 1-11 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

1. Claims 12-22 and 25 are allowed:

2. The closest prior art is JP 02-081609 U in which the inlet and outlet covers have a peripheral edge portion that is shaped into a wave-type form and captures the pleated filter media 30 there between. There is no tray disclosed in JP '609U. JP 06-071117 discloses a tray in combination with a pleated transmission filter. However, the filter media 13 in JP 06-071117 is formed with the inlet-side cover in a molding operation (fig. 5) and the outlet-side cover 11 has no wave-like regions. Further the filter media 13 is not "between said first wave-like region of the outlet-side cover and said second wave-like region of the filter media" (tray).
